Getting to Know Your Product

Setting Up And Using Your Webcam

1. Place your webcam

Designed for video calls or video creations. Place the webcam on a monitor, desktop, or tripod. Peel off the protective film and attach it to the back of the screen to secure the clip.

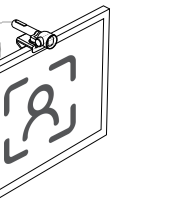

2. Connect your webcam

Connect USB cable to the USB port of your PC to provide power for webcam.

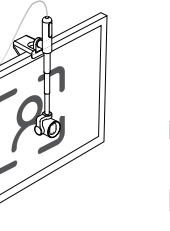

Multiple Modes

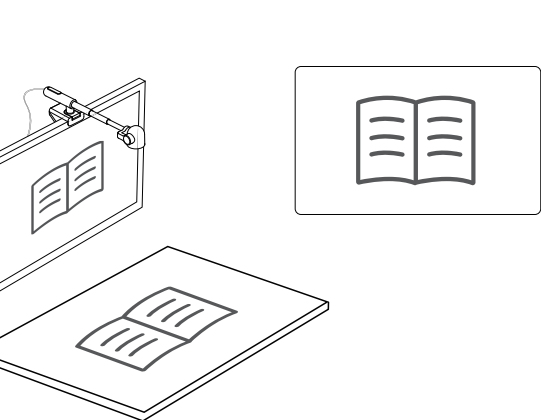

1. Basic mode

2. Center view mode

3. Table view mode

Attention

- Do not leave it under direct sunlight or by heaters. It maybe discolored or damaged.
- Do not place this product in any humid, dusty, or vibrating locations.
- Use a soft, dry cloth for cleaning instead of any volatile solvent.
- Recommended environmental conditions: Temperature: 0°C-40°C (32°F - 104°F). Humidity: 30%-85%(No condensation).
- Do not point the camera lens directly at the sunlight. It may be damaged and fails to image.
- The product may not be operated properly if a USB hub is used to connect the product and PC.
