Please confirm the attached

☐ Document Scanner

☐ Location Soft pad

☐ USB cable

☐ Software (CD-ROM disk)

☐ Installation Instruction

☐ Location Hard pad(Opt.)

Construction Installation

1. Unfold the forearm upward.
2. Align the center of base to mounting-hole on file pad.Tightening the screw.

Device connection

Connect the document scanner to USB interface of PC by USB cable and physical connection is done.

Software installation

Double click “Joyusing Document scanner” software setup and follow the indications.

Adjust device and software

Shooting result adjustment by application software

Adjust the shooting specification value on PC software for optimum result in accordance with environmental light situation. With small sized objects being scanned ,over-exposure might occur due to the high contrast by pad of black background and small sized objects. Slide the exposure value bar and adjust it.

Touch  icon lightly to switch LED light brightness among 3 levers

Adjust exposure

Start to operate

Double click “Jousing scanner” Icon, open the operation interface and put target object on pad . Then, click ‘shoot’ button to scan.
